

Elevate Efficiency & Compliance with Intelligent Output Management Solution

InterForm M3 Package

The InterForm M3 Package is a 360-degree output management solution which contains the necessary components for enhancing output management processes within the M3 ERP environment (On-prem or Cloud). It helps organizations to streamline document creation, formatting, distribution, and archival tasks in a smooth and intelligent way.

The right tool for Infor customers

- Single end-to-end solution.** Works with multiple source systems & applications on-premise & in cloud
- All the output formats you need**
- Easy to learn and onboard employees**
- Low code – No code.** Endless possibilities for configurations and customizations
- Convert existing IDM templates to InterFormNG2 documents** using conversion tool
- M3 ready content** (layouts, IDM archive, distribution flows etc.)

Single end-to-end solution. Works with multiple source systems & applications on-premise & in cloud:

InterForm is designed for your business and organization and not just for your ERP. InterForm can handle data from multiple ERPs or other applications at the same time.

- | | |
|--|--|
| DATABASES & CDPS <ul style="list-style-type: none"> • SQL • RESTAPI | OTHER SYSTEMS <ul style="list-style-type: none"> • Webshop • Customer portal • Archive systems (other than IDM) • Sharepoint • WMS- HCM-, CRM systems • ERP (SAP, D365, Iptor etc.) |
|--|--|

Works both on-premise, in cloud or hybrid
