

Your Tailored MDR Solution

Scale Your Security Operations with a 24/7 Threat Detection and Response Unit

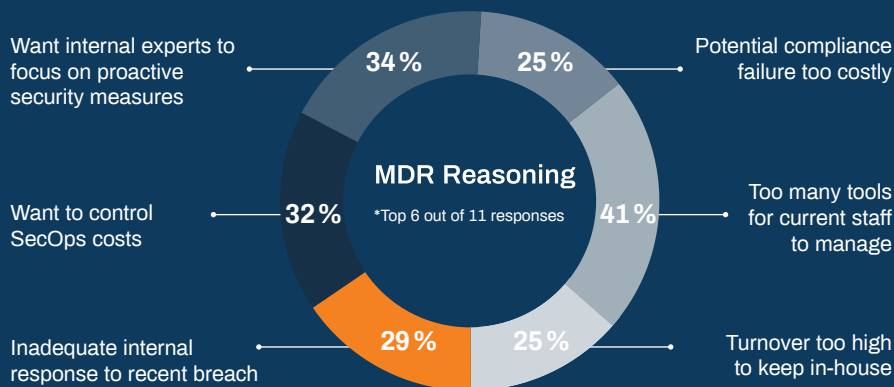

The Time for Managed Detection and Response is Now. When it comes to safeguarding your organization's digital assets, the right approach to Managed Detection and Response (MDR) can make all the difference. Here's why you should consider it today.

What is Managed Detection and Response (MDR)?

At its core, MDR is a proactive cybersecurity service that offers advanced threat detection, response, and threat hunting. It combines the power of skilled experts and sophisticated forensics technology to detect and respond to both known and unknown attacks.

Factors Driving Interest in MDR Adoption

The digital landscape is evolving rapidly, and so are cyber threats. These are the key drivers pushing organizations towards adopting MDR:

Your Benefits

- Achieve a 413% ROI on your ManagedXDR investment via cost savings, risk reduction, and productivity gains
- Raise the skill level of your team through collaborative investigations and live chat with our analysts
- Receive unlimited response for in-scope assets, and monthly threat hunting, with option of continuous managed threat hunting as part of ManagedXDR Elite
- Gain threat knowledge to defend against adversaries
- Improve your security posture as our security experts provide quarterly reviews of your defenses, and easy access to comprehensive

A tailored MDR approach to help you:

Reduce Risk:
Proactively identify and respond to threats

Protect Investments:
Maximize your cybersecurity ROI.

Fill Talent Gaps:
Access extensive security expertise.

This MDR solution offers real-time support with 24/7 live chat connecting you to security experts in under 90 seconds.

Taegis XDR is an open-without-compromise SaaS solution designed to:

- Hunt, Detect, and Respond: Proactively identify and neutralize threats.
- Telemetry Integration: Leverage data from all sources.
- Patented Analytics: Utilize cutting-edge analytics.
- Real-World Threat Intelligence: Stay ahead of emerging threats.
- Agent Integration: Seamless integration with existing EDR agents or a free agent provided by Taegis.

Critical Factors for MDR Success

What makes a successful MDR partnership?
It's a combination of broad experience and deep threat intelligence:

- Broad Experience: 37% consider it the most critical factor.
- Deep Threat Intelligence: 51% see it as very important.

Discover a Secure Future with Secureworks Taegis Platform

- Proactively Identify and Respond: We don't just detect; we act.
- Maximize Cybersecurity ROI: Your investments are safeguarded.
- Access Security Expertise: Filling the gaps with our world-class team.

Award-Winning MDR

Secureworks is cited as a Leader in The Forrester Wave™: Managed Detection And Response, Q1 2021.

Secureworks is cited as a Leader in the IDC Market-Scape: U.S. Managed Detection and Response Services 2021 Assessment.

Trusted by 4,400+ Customers Worldwide

Join the 4,400+ diverse global customers who trust their cyber defense to Secureworks, a leader in MDR and XDR. The average ROI they deliver is an impressive 400%.

Their achievements speak for themselves:

- 2023 Strong Performer in the Forrester Wave: Managed Detection and Response (Q2)
- 2023 Leader in Cybersecurity Incident Response, GigaOm Radar Report
- 2022 Cyber Defense Magazine Global InfoSec Award Winner
- 2022 Cyber Security Excellence Award Winner
- 2022 Frost & Sullivan Customer Value Leader for XDR

20+ Years of Attack and Threat Actor Data

80+ Researchers in our Counter Threat Unit™ **1,400+** IR Engagements Performed Last Year

135+ Threat Groups Actively Monitored **52,000+** Unique Threat Indicators Update Daily

Secureworks: Your Cybersecurity Partner

Secureworks, listed on NASDAQ as SCWX, is a global cybersecurity leader.

With over 20 years of experience, Secureworks have actively monitored 80+ Threat Groups, performed 1,400+ Incident Response Engagements last year, and update our threat indicators daily.

They are supported by 52,000 Researchers in their Counter Threat Unit™.
